Code review form

		Yes/No	Notes
1	Does the code run?	Yes	
	Run without errors (logical)	Yes	
	Input validated?	Yes	
2	Are all requirements/specifications for the code met?	Yes	
3	Did author plan code?	Yes	
	Pseudocode?	N/A	
	Flowchart?	Yes	
4	Are data types used correctly?	Yes	
	Does the application correctly convert between types if/when needed?	Yes	
5	Variables are used and named appropriately?	Yes	
	Descriptive / meaningful	Yes	
	Uses camelCase	Yes	
6	Is the code readable/understandable?	Yes	
	Is the code indented appropriately?	Yes	
	Are the comments adequate/appropriate?	Yes	
7	Methods are used and named appropriately?	Yes	
	Apply DRY principle.	Yes	
	Does one function	Yes	
8	Are Classes modeled appropriately?	Yes	
	Properties are appropriate?	Yes	
	Class methods appropriate?	Yes	
9	Are appropriate data structures used for storing/processing data?	Yes	
	List, Map, Set, etc.	Yes	
10	Is the code built using MVC structure?	Yes	
11	Can the author explain Dependency Injection? (DI)	Yes	
	Can they explain how DI is implemented in their application?	Yes	
12	Are exceptions handled?	Yes	
	Good use of try/catch/finally blocks	Yes	
	Do they show too much information when thrown?	Yes	yes they don't show too much info
	Are the appropriate exceptions caught?	Yes	
	Do custom exceptions respond appropriately?	Yes	
13	Is there a service layer?	Yes	

	Does the service layer contain only business logic?	Yes
	Is the author able to explain the importance of the service layer?	Yes
14	Is there testing for the code?	Yes
	Can the author explain stateful / stateless testing?	Yes
	Is there adequate testing coverage?	Yes
	Is the Service layer tested?	Yes
	Are the DAOs tested?	Yes
15	Does the application use Lambdas and streams correctly?	Yes
16	Are the IO/CRUD operations performed correctly?	Yes
	Is appropriate data returned in appropriate format?	Yes
17	Is author able to explain foundational elements of the Java language?	Yes
	Abstraction, inheritance, polymorphism, encapsulation?	Yes
	Can author explain how / why they coded a solution the way they did?	Yes
